EXPERIENCE

Administrative Operator/Officer (Controlling/Logistics department)   2019 - 2020
S.C. Bosch Automotive S.R.L., Blaj
        Responsabilities:

- Keeping track of a large quantity of files (Excel, Word, Access databases) which would usually contain hundreds/thousands of components for each category;
- Adding/Deleting of components from the system (SAP ERP), making sure everything is in order;
- Double checking/sending daily/weekly/monthly reports taken from SAP in different formats for different departments;
- Worked on an automation process which helped me and my work colleagues save a lot of time. The system would take those daily/weekly/monthly reports by itself and send them automatically to whoever needed them (this was done using a program called Automation Anywhere, which included some PowerShell commands and Python, to some degree);
- Assist other senior colleagues in meetings and offer support wherever needed.

Junior .NET Developer   2022 - 2024
Tremend Software Consulting S.R.L., Bucharest
        Responsabilities:

- Improvement, configuration and debugging of different software applications;
- Creation/Assist with other senior developers of different functionalities on different projects (Back-End side, also took ownership of some other tasks as well);
- Offered technical support for different web, desktop and mobile applications;
- Cretead documentation and flowcharts for applications on projects I worked on;
- Tested code and worked on fixes and improvements both Back-End (C#, .NET) and server-side as well (MySQL).

    Projects I worked on:
- Cargus (courier company);
- MyFuture (U.S.A. based project, platform for children);
- eprod (U.S.A. based project, fuel/oil pipe company).
